FAIR WOMAN'S DOINGS AND IDEAS.

> Teach the Girls as Well as the Boys How to Earn Their Living-How to Dress Your Windows-Don't Drug the Little

MATRONS AND MAIDS.

Teach One Thing Thoroughly.

MANY a girl that is brought up in affluence, with the hope and just reason for supposing that she will never be obliged der kind. to carn her own living, finds that a turn of fortune's wheel has thrown her upon her own responsibility, and

of stock of her var ous accomplishments, trying to sift out from the number one single item which will be of some actual use in money earning. During the days of affuence her voice has been praised, but when she endeavors to get some position where her singing will be paid for sne discovers that the world's criticism is not as gentle or flattering as that which greeted her efforts in the drawing room or when she sang for liquor? Of the two, the baby-drugcharity. Her drawing and painting ging is the worst, for the babies have have been praised to the skies. until no choice; if they had, they probably she feels surely with her brush she may win her way to fortune; but, alas! she finds herself only one among a thousand amateurs equally gifted. ductions are "gua anteed" to be and that bubble bursts like the others.

Now there is a lesson in all this that parents should take to heart. Have the children taught one thing thoroughly rather than give them a smattering of a dozen accomplish- of these preparations, and its power ments that will never serve any real to quiet the child is gone. The efearnest purpose when the need for such laber comes along. Let the sion. Look at the thousands of unemployed men who could readily secure something lucrative to do if they had received a thorough training in even the most plebe an trade. Treat the girls in the same fashion. A systematic course in millinery, dressmaking, or cook ng is far more of a dependence than a scanty superficial knowledge of the more elegant accomplishments. Even though the boy or girl never has occasion to use the knowledge so thoroughly ac ju red there is a world of satisfaction in the thought that they are master of one subject at least, and though there never comes a time when money must be earned through its agency the labor has not been lost, for in gaining perfection in one thing diligent habits have been established and the character strengthened and rounded through necessary application that

ductive and harmful.

factor nowadays in furn shing and methods are endless. If the window is a broad one it can have a shade, eries on poles. With well selected colors in hangings the window is complete. If there are two windows close enough together they may be treated as one, with a broad moulding of woodwork between. The curtains should be unusually full and wide and poled in good style. On the moulding there is a fine chance for decoration. Place there a bracket of good form and on it a vase of rich tone. Both will set off the window and present a fine foci to that part of the room.

The ultra-fashionable woman dresses her windows with expensive lace which falls from the panes in straight lines. This is a thought in window dressing because it shows to advantage the pattern of the lace. yet falls in those graceful folds where curtains are expected to do duty as charming effects. The Swiss muslins are now greatly used. They have large dots and small half moons and square designs and when ruffled are wonderfully inviting and fresh looking. The muslin is of good width and can be hung by gift rods and those convenient little brass rests which are now so greatly in vogue.

The Etiquette of Visiting.

Married women leave their husband's cards with their own: that is to say, one is left for the gentleman of the house and one for the hostess. writes Isabel A. Mallon in an article on "The Art of Dressing for Visiting" in the Ladies' Home Journal. A dinner party demands a call within two weeks, but it is not required after a tea or a large reception. If a friend is ill it is proper to call in person and leave a card with kind inquiries written upon it. A very pretty English fashion is gradually finding its way here. After a severe illness a lady may send by mail to all people who have called to inquire for her an engraved card reading in this way: Mrs. James Brown presents her compliments and her thanks for recent kind inquiries." This does away with the necessity of making visits when one is still in ill health. | pride: and yet it is a recognition of the courtesies received. It is polite, also, to leave a card of congratulation when a new baby appears in the fainily, but one is never expected to ask to see the mother.

An Umbrella Stand.

be made of common pipe tiling. Se- in the plate. cure a smooth section, and one that is perfectly symmetrical. Paint it a surroundings, and then, if you have and wife, the wife will forgive more

the talent to do so, paint a little water scene or landscape on it. If you can only paint flowers, decorate it with a ray of roses or popples. For the bottom of the umbrelia stand, get a common yellow earthen dish. such as the old-tashioned fat custard and pumpkin pies were once baked in. Set the tile s uarely in the center of this and fasten with good cement. It will take two or three days to dry. Of course, it must be painted with the rest. This makes cheap stand, but if the maker has a bit of taste, it is capable of hand. some treatment, and will give satisfaction for small outlay. Another stand which can be made just as pretty, but is smaller, utilizes an old two-gallon jar, one of the tall, slen-

Why is it that so many men and women, move Heaven and earth to put down the liquor traffic and the use of opium, and not one of them she takes account ever says a word against the traffic in the nursery? How many nurseries are free from some advertised "remedy" that is guaranteed to "quiet" the fretful child, and give it and mother a good night's rest? asks the New York Morning Advertiser. If it is right to drug a fretful or wakeful infant to sleep, why should the community raise such a commotion when an adult seeks the same end by a pipe of opium or getting full of would refuse the dose, while the adult takes his drug voluntarily. To be sure, all the pharmaceutical pro-"harmless," but the "guarantee" amounts to no more than any other guarantees of cures by medicines -that is to say, it amounts to nothing. Eliminate the opium, chloral or other sleep producing drugs from any one fect of these compounds on children is, of course, ultimately very disastrous-a toss-up between death and a life of ill-health.

Cracks in Bread Loaves. The cracks in loaves are caused usually by too much flour being used in the kneading, making the loaf too stiff. When the patter is set at night sufficient flour is added to make it pour thickly from a spoon In the morning, when kneading, only enough four should be added to keep the dough from sticking to the hands and the board, and practice in kneading makes this quantity much less than at the first trial. Bread should be turned in the oven while baking. so that all sides may be baked equally, or be exposed to equal heat, as this somet mes makes the cracks.

Cleaning a Straw Hat.

The real Italian Leghorn straw may be cleaned with a nailbrush and Castile soapsads, writes Emma M. Hooper in the Ladies' Home Journal. Rusty black hats may be renovated with the liquid dressing or polish sold for ladies' shoes. White or yellow hats may be bleached by washing them in clear water and placing The dressing of windows is a great them in a box with burn ng sulphur, the fumes of which uniting with the wate, from the acid which bleaches.

Hints to Housekeepers.

Coffee boiled longer than one minute is coffee spoiled. WARM dishes for the table by im-

mersing them in hot water, not by standing them on a hot stove. Mix stove blacking with spirits of

turpentine. It will take off the rust,

polish easier and stay glossy longer than when water is used. WHEN you are hurried and a post-

age stamp will not stick, moisten it and rub it on the flap of an envelope, and then quickly put it in its place. To POLISH brass kettles that are very much tarnished. first rub with a

solution of oxalic acid, then dry and

polish with rotten stone or the finest A SMALL teaspoonful of powdered borax added to a bowl of cold starch will give more stiffness to linen than any of the numerous things I have

tried. App a tablespoonful of borax to a pan of hot soapsud -: put your table silver in it and let it stand two hours; rinse it with clear water and polish

with a soft cloth or chamois. A NEW method of cleaning clothes is suggested. Dip the clothesbrush in the yolk of an egg, so that the bristles are quite wet. Allow it to dry and then use. This treatment has, it is sa'd, the effect to make the brushing especially effective.

His Contribution.

A certain teacher, whose work brings her into the midst of a very crowded city region, is always anxious to keep track of contagious diseases there, and has asked her pupils to bring her word whenever they see a placard in a window, announcing scarlet fever, smallpox, or the

The proverbial slowness of maga zines in printing accepted articles is il Instrated in Scribner's for April. It contains a pretty poem by H. C. Bunner. Puck's famous editor, who died about a year ago.

To Cure Constipation Forever. Take Cascarets Candy Cathartic, 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Socrates called beauty a short lived tyranny; Plato, a privilege of nature; Theophateus, a silent cheat: Theocritus, a delightful prejudice: Carneades, a solitary kingdom; Homer, a glorious gift of nature: Ovid a favor bestowed by the gods: Domitian said that noth ing was more grateful, while grand old Aristotle asserted that beauty was better than all the letters of recom mendation in the world.

The keeper of the lighthouse on the Farallones islands bet every hair on his head on Corbett against the finest eravat in San Francisco, which was to be purchased for him by the schoolmistress on the islands if Fitz lost the fight. The lighthouse keeper is going around with a head as bald as a billiard ball and the schoolmistress carries with her a little bag of hair of which she seems yery proud.

Certain fees are customary on ocean steamers. To be comfortable one must stand in with the table steward, who expects \$2.50. The next best friend is deck steward, who favors you in arranging nice, dry rugs and steamer chairs. It is sometimes better to eat on deck than below, and he fixes that all right. He will also bring sandwiches and broth on deck, and helps you in various ways if you are not feeling well. It is only fair to tip him with about \$2; never less than \$1. His salary is only \$12 and board per month.

As the eyes of the world are now directed upon Greece, it may not be out of place to tell a story which is now enjoying second youth. Earlier in the century Sir Thomas Wyse was the British consun at Athens. One night Sir Thomas was dining with the then Greek premier and some of his colleagues in the ministry. Towards the close of the entertainment Sir Thomas produced an exquisite petitot snuff box, which was handed around for inspection. The course of conversation happened to divert the attention of the consul for a moment, and when it returned to the box the treasure had disappeared. The minister of police, who was sitting on the right, inquired of Sir Thomas in whose hands he had last observed the box, and the latter replied that he thought it had been in hands of the Minister of Marine. Later in the evening the minister of police handed the box back to Sir Thomas, and being asked where he had found it, said: "You told me that when you last saw the box it was in the possession of my colleague, the minister of marine. I picked his pocket." @@@@@@@@@@@@@
